Get Up

You only care if you give a damn
It's a price worth paying if you understand
A sacrifice aint a sacrifice
Unless you leave with a bleeding hand
It feels like you're invisible
A lonely man a biting fool
But if you're brave reach out have faith
That someone out there loves you

(Chorus)
Getup, get up get back on your feet
Nothing ever comes from nothing
All that you need is something to believe in
You gotta wake up and give it to me

You only get what you wanna give
It's a growing pain if you want to live
And destiny is just what you see
It's the colour of a broken dream
It feels like your own melody
Aint half as good as it should be
I understand go get want you want
Take all you can

(Repeat ChorusÃ–

You gotta wake up
Take what you wanna take
You gotta wake up
Make what you gonna make
You gotta wake up
Break what you wanna break
You gotta wake up
And give it to me

Get up, get up get back on your feet
Nothing ever comes from nothing
All that you need is something to believe in
Time and time again, time and time again

I gotta wake up
Take what I wanna take
I gotta wake up
Make what I'm gonna make
I gotta wake up
Break what I wanna break
Now give it to me

(Repeat Chorus)
