She says this emptiness is medicine that breaks you
down
She says she is my kind and in my mind I can't get out

I can turn I can twist
I can try to resist
But I can't live if you leave me like a dead man walking

I come alive
When we're together
I come alive
(I come alive when you are standing by my side, I come
alive)
I come alive
When I've got you by my side
I come alive
(I come alive when you are standing by my side, I come
alive)

You never stay too long
It's always wrong leaving me too soon
You got me naked shaking can't you hear me calling
out for you
In this direction I can't see that no protection sets me
free

I can turn I can twist
I can try to resist
But I can't live if you leave me like a dead man walking

I come alive
When we're together
I come alive
(I come alive when you are standing by my side, I come
alive)
I come alive
When I've got you by my side
I come alive
(I come alive when you are standing by my side)

I know we could find a higher place

I can feel it every time you come around

I come alive
When we're together
I come alive

I come alive
When we're together
I come alive
(I come alive when you are standing by my side, I come
alive)
I come alive
When I've got you by my side
I come alive
(I come alive when you are standing by my side, I come
alive)

I come alive
When we're together
I come alive
(I come alive when you are standing by my side)
Yes, I'm alive
Now we're together
I come alive
Alive
