Unexpectedly

Looking for a reason to carry on
A passion of apocalypse to center
Hoping for victory to set me free
I need to find someone to comfort me
Must I live my days and these cliched nights?
Staring down the tunnel to find a light
I'm tired of all these one-way conversation
Loosing patients with myself

(Bridge)

The more things change
The more they stay the same

(Chorus)

Then Unexpectedly
Girl you came to me
I found you sneaking in my dreams
The fire in your eyes
The way your beauty shines
All these gifts you give to me
Then Unexpectedly
Girl you came to me
I found you sneaking in my dreams

I hope this apparition won't disappear
Is this rush excitement or is it fear
Tell me that I'm not talking to myself
'Cos maybe just maybe she's here with someone else
Lost in the intensity of her star
Lighting up the room like a solar flare
Praying that this might be my best mistake
As she takes my hand my world starts to shake

(Repeat Bridge and Chorus)

To a world just you and me
Tell me where you want to go I'll take you there
And show you if this were real

(Repeat Chorus)
