

Root Boy Slim "Country Love"

Visit "[Country Love](#)" on MotoLyrics.com

Under the bleachers at the tractor pull
On a hayride when the moon is full
In a hayloft in the barn
I like to love you here on the farm

They say we got shit between our toes
We do some lovin, goodness knows
I take my baby to the lower forty
When I feel my oats when I'm feelin sporty

Mom and papa drive to town
That's when our country love come down
Just about any place, any time y'all
Down by the lake in the warm sunshine

I got you and you got me
Makin love by the crabapple tree
Let 'em have all that city crime
I'll take your country love anytime

Over in the tractor she'd
Using a feed sack for a bed
It's something we was bred to do
Cause our mamas and papas was country too
Yeah yeah

I want that lowdown country love
I want that deep down country love
I want that lowdown deepdown country love
Got to have it baby you know what I'm talkin about

Where can we go baby
Down by the lake
In the Astrodome
I got to have your country love baby
I got to have your country love
I love to love to love your country love
