I see her move in every motion
I hear her whisper in the wind
I see her tears in every ocean
I feel her rhythm when I sing

My, my, my beautiful girl
My, my, my beautiful girl
My, my, my beautiful girl
My, my, my beautiful girl

She is my light, my inspiration
She has the sweetest recipe
She is a sensuous temptation
She does everything for me

We love it in the night and we love it in the day
We never fly astray
Over the mountains, over the hills
Far, far away

I'm a question, she's the answer
Cause she makes me realize
