Lit cigarette and a break up note
This time I'm gonna go for broken-
Burning holes through all the words that got to me the
most
She said "This is what you get
When everything you do in lifes a mistake
Try not to fuck things up again"
Oh no..I think I'll find another bar

This town is like a bad infection
Heading in the wrong direction
Everyone keeps telling me I better play it safe

This is what you get
When everything you do in lifes a mistake
Try not to fuck things up again
Some day, I'll catch up to where I've been (we're
heading in the wrong direction)
I'm so tired, but home is where the hope is

I can't breathe
I can't breathe
I can't breathe without your oxygen
I can't breathe, breathe

Conscious but I'm barely breathing
All my gathered thoughts are seeping
In the alleyway I'm feeling dizzy, hit the floor

This is what you get
When everything you do in lifes a mistake
Try not to fuck things up again
Some day, I'll gcatch up to where I've been
9we're heading in the wrong direction)
I'm so tired, but home is where the hope is

I can't breathe
I can't breathe
I can't breathe without your oxygen
I can't breathe, breathe, breathe

My words are slurring but I won't stop singing
My words are slurring but I won't stop singing
My words are slurring but I won't stop singing
My words are slurring but I won't stop singing

Turn me upside
(You know you want it..)
Turn me upside down
(You know you need it..)
Baby, upside
(You know you want it..)
Turn me upside down
(You know you need it..)
Baby, upside
(You know you want it..)
Turn me upside down
(You know you need it..)
Baby, upside
(You know you want me..)
Turn me upside down, baby

I'll never believe in love again
I'll never believe in love again

Some day, I'll catch up to where I've been
I'm so tired, but home is where the hope is

I can't breathe without you
I can't breathe without you
I can't breathe without you
I can't breathe without you

I think we've been through this before
I think we've been through this before
I think we've been through this before
I think we've been through this before

I think we've been through this before
