Tonight I've got my back against the door
So when you leave I'll be the last
To wish you well

So amused by the irony
You made a wish upon my fist
Your wish came true
You said you're sorry
But I know very well
That nice guys finish last

I'm going crazy
Trying to set myself apart from this
Burn your bridges down
Pick your feet up off the ground
Get back in the ring

They tell me I'm sadistic
I tell you that it's true
I see you dancing with my girl
My eyes turn red

You say you're sorry
But I know very well
That nice guys finish last

It's not my place to say
It's not yours to take from me
"Arigato mister roboto"
I see you dancing
But you're just not good enough
Dance the night away
You're on fire

I'm going crazy
Trying to set myself apart from this
It's not my place to say
It's not yours to take from me
