"Bitter"

Shame is such a plain way to describe this state

And every forked tongue displays your intentions

With every forked tongue a way to ascension but

All is not well in this world we've created so bitter and
jaded

Again with the same rusted routines we make

Does every forked tongue seem as unrelenting

As power as pressure every gluttonous pleasure you
seek

All is not well in this world we've created

It's over you've fucking wasted it
