A grand deception  
Disguised as God's redemption  
Force fed delusions  
Of grandeur calling out for

A willing sacrifice  
Of a nameless enemy  
Necessary losses  
Fulfill the bloodlust fantasy

A willing sacrifice  
Of a nameless enemy  
Necessary losses  
Fulfill the bloodlust fantasy

See through this facade  
Of retribution  
This machine  
Is marching to the killing rhythm

See through this facade  
Of retribution  
This machine  
Is marching to the killing rhythm

Spilling blood in vain  
Subdues the vengeful masses  
Spilling blood in vain  
Subdues the vengeful masses

Spilling blood in vain  
Subdues the vengeful masses  
Spilling blood in vain  
Subdues the vengeful masses

So put your blinders on  
Replace your conscious with a flag  
So you can forget  
Money runs thicker than blood

A willing sacrifice  
Of a nameless enemy

Necessary losses  
Fulfill the bloodlust fantasy

A willing sacrifice  
Of a nameless enemy  
Necessary losses  
Fulfill the bloodlust fantasy

See through this facade  
Of retribution  
This machine  
Is marching to the killing rhythm

See through this facade  
Of retribution  
This machine  
Is marching to the killing rhythm

Killing rhythm  
Marching to the killing rhythm

See through this facade  
Of retribution  
This machine  
Is marching to the killing rhythm

See through this facade  
Of retribution  
This machine  
Is marching to the killing rhythm

Spilling blood in vain  
Subdues the vengeful masses  
Spilling blood in vain  
Subdues the vengeful masses
