(Rosanne Cash)

I'll send the angels to watch over you tonight  
And you send them right back to me  
A lonely road is a bodyguard  
If we really want it to be  
There's fascination behind every window  
But I know you really care for me  
And soon we'll be sleeping in Paris  
And we can set those angels free

No one sees behind the mask  
No one knows I'm sinking past  
But soon we'll be sleeping in Paris  
And we set those angels free

Love is just a lunar slave  
It's tied to the ebb and flow  
Generations get glued to the waves  
Just to see which way they'll go  
There's desperation on wild street corners  
But I think you're just waiting for me  
And soon we'll be sleeping in Paris  
And we can set those wild ones free

No one sees behind the door  
But every day it's One step forward  
And soon we'll be sleeping in Paris  
And we can set those wild ones free

All those nights I laid with my eyes closed  
But not sleeping at all  
Those nights  
I thought I knew which way the wind blows  
But now it's blowing me back to you  
And the wind speaks French too

No one sees and no one knows  
But every day I'm letting go  
And soon we'll be sleeping in Paris  
Soon we'll be sleeping in Paris  
And we can set those angels free
