### "A Little While"

Visit "[A Little While](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I've taken every word you say to me with of grain of salt  
And it's not just your fault anymore  
If you would have thought back way before it all went  
bad  
You might have taken to heart the things we had

That's enough from me for a little while  
Not that you could see through a sorry smile  
And in case you can't tell you've broken this shell of me

I'm taking every word you say to me with of grain of  
salt  
Because it's not just my fault anymore  
If you would have known me way before it all went bad  
You might have taken to thought the things we had

That's enough from me for a little while  
Not that you could see through a sorry smile  
And in case you can't tell you've broken this shell of me

If I had a shred of compassion for your aching head,  
you might feel older  
Holding you so dear like angel in the stratosphere  
could be my only hope
