"Alone With You"

Well how I'd love to be around you when the lonely
night surrounds you
How I'd love to be alone with you
What I'd give to have the power to read your mind one
hour
How I'd love to be alone with you
Just to be with you one night you and me alone
Just to kiss and hold you tight have you for my own
This would be a joy unending could be a real beginning
How I'd love to be alone with you
[steel - guitar]
How I'd love to be around you when the lonely night
surrounds you
How I'd love to be alone with you
If I only knew for certain I'd cut out all my flirtin' how I'd
love to be alone with you
Just to be with you one night you and me alone
Just to kiss and hold you tight have you for my own
If you'd only be my baby just once then well maybe
I could always be alone with you
Yeah I could always be alone with you
