Well how I'd love to be around you when the lonely  
night surrounds you  
How I'd love to be alone with you  
What I'd give to have the power to read your mind one  
hour  
How I'd love to be alone with you  
Just to be with you one night you and me alone  
Just to kiss and hold you tight have you for my own  
This would be a joy unending could be a real beginning  
How I'd love to be alone with you  
[ steel - guitar ]  
How I'd love to be around you when the lonely night  
surrounds you  
How I'd love to be alone with you  
If I only knew for certain I'd cut out all my flirtin' how I'd  
love to be alone with you  
Just to be with you one night you and me alone  
Just to kiss and hold you tight have you for my own  
If you'd only be my baby just once then well maybe  
I could always be alone with you  
Yeah I could always be alone with you
