(Bob Wills)

I still love you as I did in yesterday
Many years have gone by though it seems just like a
day
It's no wonder that I love you you've been so kind and
true
There'll never be another it will always be just you.

We come along ways together and you proved your
love was true
Life's been a pleasure and it's all because of you
And to me you'll always be just as sweet as flowers in
May
And I still love you as I did in yesterday.

--- Instrumental ---

I still love you as I did in yesterday
Many years have gone by though it seems just like a
day
It's no wonder that I love you you've been so kind and
true
There'll never be another it will always be just you...
