Read my letter once again
Open your heart let me come in
Don't hold back your foolish pride
Read my letter one more time.

I'm always lonesome since you're gone
I'm paying now for the wrong
Each dream of you I call your name
Read my letter once again.

--- Instrumental ---

Read my letter once again
Open your heart let me come in
Don't hold back your foolish pride
Read my letter one more time.

How can my days be so blue
How can I go on missing you
My lonely life is all in vain
Please read my letter once again...
