When I seek I found my time another way
I believe that time will unwind my thoughts all day
We can change our mind, shake my head, realize your
name
I will fall behind, try to catch that feeling today
I... I fade away, all day
Hold me down
Time is away... never tomorrow, I can change time
Change is gone
I fade away... someday
Hold me down
Time is away, another day
I can see my time rewind my thoughts another way
Oh be still this moment, I'm undecided, yeah
You will wrap my finger around your finger, yeah
Never mind what's here, you just take my hand, don't
fear
I... I fade away, all day
Hold me down
Time is away... never tomorrow, I can change time
Change is gone
I fade away... someday
Hold me down
Time is away, another day
(Interlude)
Oh, I will... I will comfort you
Oh, and you... you know that it is true
Oh, I will... I will comfort you
Oh, and you... and you know that it is true
I... I fade away, all day
Hold me down
Time is away... never tomorrow, I can change time
Change is gone
I fade away... someday
Hold me down
Time is away, another day
I... I fade away
I... I fade away...
