(Chorus)

Up above, reaching high
Finally found, the only sign

(Verse)

Oh, the winds that blow across the sea
Bring light with rays of new disease
Oh, thoughts come over the human mind
Fallen drops of rain unwind

(Chorus)

Up above, reaching high
Finally found, the only sign

(Verse)

Oh, the sail tears open, the raging wind
Then stops your message you try to send
Oh, captivate your soul as one
Realizing it's left undone

(Chorus)

Up above, reaching high
Finally found, the only sign

(Bridge)

Well it's a Monday morning out at sea
You bury the treasures of reality (4x)
