V1

She wanders all alone
This is all, she's ever really known
A stranger in her skin
Nothing more, it's all she's ever been
She spills these words across the page
It helps to ease the pain, and she cries

Chorus

Nobody out there
Wants to understand
Nobody out there
Takes me as I am
I'm feeling alone here
I know there's got to be
Somebody somewhere
That's all she wrote

V2

She always feels so small
Pushed aside, a flower on the wall
They never ask her name
No one sees, the girl without a face
She spills these words across the page
It helps to ease the pain, and she cries

Chorus

Nobody out there
Wants to understand
Nobody out there
Takes me as I am
I'm feeling alone here
I know there's got to be
Somebody somewhere
That's all she wrote

Bridge

Her great escape
She found her place
And she's never gonna be the same
It's beautiful

Cuz now she knows

Chorus

There's somebody out there

Who wants to understand

There's somebody out there

Who takes me as I am

I'm feeling at home here

I knew there had to be

Somebody somewhere
