V1

And i know, what you don't know  
what it is, that makes you act this way  
well you can change your ways  
and i have found, your all alone  
you remonis upon your glory days  
that was just a passing phase

Bridge

Well castles in the sky, sweet lullaby  
they sign their vide into your bitter times  
when words were hard to find

Chorus

And come fly away  
Let go of all your pain, and hear these words and say  
its over  
well come fly away  
we're free from all your change, and hear my voice  
and say

V2

Cause i have things  
and death begins, this lonely journey to the other side  
though the turbo's so high  
and lay you down, your soul tonight  
it's been too long since you have even tried  
to open up your mind  
the end of every march, december, may  
they leave you dreaming for another day  
these wishes all the way

Chorus

And come fly away  
Let go of all your pain, and hear these words and say  
its over  
well come fly away  
we're free from all your change, and hear my voice  
and say  
i dont want a reason to believe in all the seasons  
they just cover up your pain, you hold inside  
..... us

we should come to all that's past us  
and the cost of our emotions till we die  
it's over  
it's okay  
it's not gonna be the same  
you gotta fly away  
And come fly away  
Let go of all your pain, and hear these words and say  
it's over  
well come fly away  
we're free from all your change, and hear my voice  
and say  
And come fly away  
Let go of all your pain, and hear these words and say  
it's over  
well come fly away  
we're free from all your change, and hear my voice  
and say  
it's over well
