This is the Lotus  
The Underground  
Where all darkness meets  
For the judgement of their afterlife  
Six petals, One pod  
And an Army full of Juggalos  
Emerging from the center of the earth  
Willing and able to take control  
Of all unfinished situations  
By leading the outcasted souls  
To the power of Shangri-La

*[Shaggy 2 Dope:]*

Venomous snakes magically charmed  
All of disappear with the wave of a wand  
Pharaohs eternally rest in they tomb  
Hachets unleashed allow doom to consume  
Nomads wander were do they go?  
Scholars go insane at the minds of Juggalos  
Sand grains burn when the sun beats down  
Skin rots more as the earth spins around

*[Anybody Killa:]*

I got a handfull of dust  
From the leaf of the Lotus  
Hold it in the sky  
Blow it in the air to get my focus  
Cut off my fingertip  
I wanna see the blood drip  
Onto the tail of a possum  
Close my eyes make a wish  
On my knees praying to my Ali Baba!  
Can you hear me every time I scream an Holla!  
I'm just a killer with problems  
I want a fucking release  
Without the help of a therapist  
My family or a preist

*[Chorus x2]*

Ya heh ya mesh  
Shaken the wilderness of Kadesh  
Ben laf kilpen the urges

## Unknown apocalypse of the seven churches

*[Violent:]*

Floating on a magic carpet with a fat sword  
It's Joe Bruce of the Lotus ward (J Tneloiv)  
You can try and rub my lamp  
I might float out and spike your ass like vamp  
I bow to the pyramid I do confide  
The secrets of the carnival are deep inside  
Disrespect it, foolish, hocus pokus  
I'll spilt your forehead and plant my Lotus  
You don't know what this killa's all about  
I might sever your head off and fuck your mouth  
Bells and chimes ring 17 times  
Faceless souls act out like mimes

Pegasus cry as gargoyles take eyeballs from heads  
like skinless grapes  
Even kings will fall to their knees  
And end up only knowing one word, (esaelp)

*[Chorus x2]*

Ya heh ya mesh  
Shaken the wilderness of cadesh  
Ben laf peupen the urges  
Unknown apocalypse of the seven churches

*[Monoxide Child:]*

Come with me to the legendary land of Ali Baba  
A place of genies and flying covers  
Would you wish for rub a lamp  
Take a chance  
In the land were the genies and the gypsies dance  
Magical realms are held high visions of wishes  
And I can see them all dieing cause the vision are  
viscous  
I'm a warlock wand waver vagabond  
Have you talking backwards I be abaB ilA

*[Jamie Madrox:]*

Ali Ba.. Ali Baba  
Frog legs, eyes of a cat, teeth of a parona  
Scale of a fish  
A dream of a wish  
Sight be on sight you never picture this  
Talk in reverse then it shall appear  
*["Hsem Abab Ila Em Llac" in background]*  
Standing in front of you with a smile ear to ear  
Summon called upon from world to world  
And he leaving with the souls of the boys and girls

*[Blaze Ya Dead Homie:]*

Welcome to the dead waste land  
Children of the damned  
Demon throw me out a sack  
To search throughout the whole profession  
Black magician  
For the equation  
Of warlock grain wishes  
Any thing your eye invisions  
Freaking you without admission  
Calling Ali Baba  
Hit me with the savior  
Pray to the father  
What makes you think he'll save ya?  
Now your left to burn forever  
All the demons brought together  
Tear your body limb for limb  
Only demons call upon him

*[Chorus]*

Ya heh ya mesh  
Shaken the wilderness of cadesh  
Ben laf peupen the urges  
Unknown apocalypse of the seven churches  
The Lotus
