Violent J)

It was a dark and stormy night  
When 5 children of the Lotus crept into a local  
cemetery  
Their intentions were nothing more than to smoke  
marijuana leafs  
And drink acholic beverages. But these five young boys  
Were soon joined by some very unlikely company.  
In fact, for the children of the Lotus,  
This was some company that they could only dream of.  
I'm talking about the dead. Not just any dead.  
I'm talking about they were joined by 5 ravishing,  
Beautiful, lovely dead women who opened up to these  
boys  
And gave them their all.

(Jamie Madrox)

Do you like the Ouija, we dance  
Blood, flesh, romance  
Right there, right in front of the tomb  
Beautiful, horrific, and the moon  
Dead flesh, crazy hormones  
Me with a hard dick, her with her neck broke  
We did the tango, she breathed  
She wiped blood on a killa's sleeve  
Now I ain't ever been one to pass  
She might be dead but she got a nice ass  
Rotton to the bone, I like dead meat  
Wearing nuthin' but her panties shakin' to the beat  
So you like to dance? Is that magic?  
Is that your ass in back I'm grabbin'  
You're gettin' kinda freaky, bitin' on my neck  
My heart is beatin' fast, my underwear's wet  
And we danced...

[Chorus]

I can't believe we danced  
And I don't even dance  
I can't believe we danced  
And I don't even dance

(Monoxide Child)

Sittin' with my thoughts by the Mausoleum  
I can't believe my eyes but I know I see'em  
She walked up to me "Can I have this dance?"

And put her hand right into my pants  
She had a slit in her throat but I wasn't even trippin' a  
bit  
But I was kinda buggin' on a bitch missin' her lip  
She had a long tongue, stuck it straight down my throat  
And when I went to grab her titty it just turned to smoke  
And the bitch mouth just started bleedin' again  
I had to open up her cheeks so my dick'll fit in  
I love the blood and guts, and all the sex with the dead  
I love the sluts with the snakes comin' out of they head  
(Shaggy 2Dope)  
Damn, was there somethin' special in that?  
When I swallowed it down it kinda pushed my wig back  
Fact wait, whoa let me rub my eyes  
What I'm seein' right now startin' to make my pants rise  
Hello beauty queen, can I have this dance?  
And when the song is over can I see some romance?  
So what? You can see ya skull through your hair  
I only got one concern, pullin' down ya underwear  
As I lick the skin across her hip, I feel my tounge slip in  
into a rip  
A neden or a leg it don't matter to me  
Cause dancin' through the cemetery gots me in  
ecstasy  
And we danced...  
[Chorus]  
(Blaze Ya Dead Homie)  
My first thought when I seen her rise above the ground  
My one and only dead bitch had been found  
She was the high school prom queen, Miss teen and  
shit  
Pressure was too tight she cut her wrist  
Her clothes a little tattered, it ain't matter though  
All I wanna do is put my dick on her jaw bone  
Spent about 10, frozen, decomposin'  
Sweet talk the freak till I get them legs open  
Can't wait to get up in her decayed womb  
She's been untouched for 5 years in her tomb  
She risin' up fo a killa to be the only one  
Imagine dead funk smell every time she cums  
(Violent J)  
I was lonely, I had no one  
Might as well do masturbation  
I'll jack off while Shaggy smooches  
I'm watching him from the bushes  
Had my face down i'm in progress  
I felt something poking my ass  
It's another ghoully girly  
And look at me i'm naked early  
She came off her knee all mangled  
She had no feet, skin just dangled

We went behind a tombstone  
And I said, "Your boobies, may I hold them?"  
She lifted up her crusty sweater  
They were blue and stuck together  
Gently I peeled them apart  
And her skin ripped open, you could see her heart  
And we danced...  
[Chorus
