Anybody Killa:

I can see the Earth startin' to shift inside out  
No trace of the moon since the face burnt out  
Watch the rain fall down hard and heavy  
Dark black, light dirt but it would burn severely  
You could call it the body of the Lotus  
Hand of the magical super unnatural, keepin' you  
focused  
If the rain didn't get you, then you're here for a reason:  
To spread the word to the world that the Pod is in  
season

Monoxide Child:

You can hear the thunder clap  
The full moon gleamin' like the eyes of a cat  
The Dark Lotus is back, bitch  
And you can feel the ground pulsatin'  
And the haters start hatin'  
But it's all been anticipated  
And we've been waitin' 'till the timin' is right  
To get bombin' on you bitches who misguided the light  
And anybody who don't get it, get the fuck out my sight  
Bitch, I ain't explainin', I'm just claimin' your life, bitch!

Chorus:

These black raindrops keep fallin' down  
You can tell there's something goin' on, take a look  
around  
These black raindrops keep fallin' down  
Arms spreadin' to the Lotus Cross, holdin' it down  
These black raindrops keep fallin' down  
And I don't know why f&çâ, -Ã,Â! why  
These black raindrops keep fallin' down  
And I may never know why f&çâ, -Ã,Â! know why

Violent J:

I'll stick a runnin' chainsaw blade all down your throat  
And fuckin' outta your ass  
I cut your body in half  
I gotta be bloody, need somebody blood on my body  
I need to be the bloodiest i bloody buddies and hotties  
I'm 'bout to murder for the Lotus

Black rainin' falls upon us  
And I don't need no more therapy I know who I am  
And I don't like it playing through your brain blew ya  
kablam!

Blaze Ya Dead Homie:

I sit alone speakin' wit' the head of a raven  
He sat there and told me why my life's worth savin'  
So I shot him in the face, then I shot myself  
After he said that they're tryin' to turn the kingdom into  
Hell  
I was appalled, put his head in my burlap sack  
And just then Black Rain hit me in the back  
Ice cold raindrops that look like black blood  
Are falling all over the neighborhood (And here it  
comes now)

CHORUS

Jamie Madrox:

A new age, a new time  
Now that the planets are aligned  
Imagine a Lotus sign  
Imagine da broken minds  
Just waitin' to be fixed  
(With the petals of the Lotus you can answer all that  
shit)  
We the unstoppable force  
All you haters of course  
Armed with the fury  
And the family is the power source  
Wicked, red clouds, filled with Black Rain, sewed up  
Until they become too heavy and burst and I show up

Shaggy 2 Dope:

Maybe your stupid-ass ain't heard  
It's the Pod, little bitch, and we're back like a message  
bird  
Lift your chin, face to the skies, Black Rain  
Palms out, feel the sting and let your soul get drained  
We don't give a fuck, like it or not  
Lotus up in the mirror shots and all Juggalo spots  
I'll put a stain on they little blade pieces  
'Cause when we out, bitch, the Black Rain increases

CHORUS

How do I know this is part of my real life?  
How do I know this is part of my real life?  
Real life.
