Further and further away (x4)

[Violent J]

My compass spins outta control
Which way do I go to get outta this hole
I've come so far that I've lost my way
Caught in a world full of yesterdays
The sun and the moon have become my tomb
Morphed into one as my time consumes me
No direction, no reception
Nothing but a godless life extension

[Blaze]

Gone out the skull like a drop off paw
In the Death Valley desert with peyote in my jaw
My head is poundin, my vision is clouded
Barley see the shadows of the peoples that surrounded
Nothing astoundin this is man at it's lowest point
Shakin up the bottle on the mutilation joint
They brought me back to Earth now everythings in
focus
The reason I'm still breathin is only for Dark Lotus!

[Shaggy]

It's a never ending story, I'm like a train
Get away from the nothingness that consumes me
Floatin on a rock, barely see the land
Back in the day I was baskin in the sand
I don't see no hope, I don't see no drive
The only way out this shit is MAN FUCK THAT!
The further I get the closer I come to somethin else
That's Lotus love nothin more and nothin less

[Chorus]

Further and further away
On my trail I'm lost
Further and further away
Off the path I must have drifted
Further and further away
I need to gooooooo
Further and further away
I need to gooooooo

[Monoxide]

Where the fuck am I goin, don't know and don't care
D-L up in the air, you know I'll be there
And no spare time, Better beware
The line was drawn in ya blood, Like a nightmarish
flood
No thugs, no hugs, spit wicked shit
When the time come quick, I'll be waitin by the space
ship
Face this, fat bitch we back
With a whole new reason for unleashing the attack

[Madrox]

No sense of direction strayed from the path
Even GPS can't find my ass
Lojack got an indicator can't locate me
Guess I'm lost, better pray that they find me
Alive or dead, maybe buried in the woods
Chopped up in the trunk, in the back of the hood
Assimilate the team where death is the goal
Bring the petals back home the flower becomes whole

[Breakdown]

The sun and the moon have become my tomb
Morphed into one as my time consumes me
Can't locate me
My head is poundin, my vision is clouded
Barley see the shadows of the people that surrounded
Can't locate me
The further I get the closer I come to somethin else
That's Lotus love nothin more and nothin less
Can't locate me
No thugs, no hugs, spit Wicked Shit
Lojack got an indicator can't locate me

[Chorus x2]

I need to goooooo {fade}
