[Monoxide Child:]

Now that I'm dead and gone  
Look at me  
I'm floating like the breeze  
With my roots strong like trees  
I'm filtered in your memories  
Holding a candle light vigil  
Saying a prayer  
My name is graced  
Buried with the paint on my face  
I put the chase up long enough  
I live the lifestyle wrong and tough  
And now my life span's up  
I give a fuck  
I'm about to run it in the after life  
And hopefully they put my soul in the butcher knife

[Shaggy 2 Dope:]

If I was to die  
It'd make a lot of people happy  
No funeral processions  
No plot at the cemetery  
Finally  
I can be alone in my own world  
The wagons come take me away from the killing fields  
If I was to die  
Would you finally shut your mouth?  
Understand what I am  
Understand what I'm about  
Like curse  
Place me up high on your pedestal  
I'm about to find out  
(SHAGGY IT'S TIME TO GO)

[Chorus x2:]

I wanna die  
So I can see the otherside  
I wanna die  
So I can fly (Take Me With You)  
I wanna die  
Take me to the otherside  
I wanna die

So I can fly (Take Me Away)

[Violent J:]

I wanna die  
Maybe I'll get angel wings  
So I can cut them off  
Cook them up  
I have some helly wing dings  
I'd take my halo off  
Get myself a ladder  
Hang it on the wall  
Maybe you'll think it's a gold record  
Death  
Everybody follow my hearse  
Why does everybody always gotta go and die first?  
Before their homies are missing them  
Family members kissing them

Everybody even enemies stop dissing them  
I want to die  
So I can haunt my buddies  
Stand behind them in the mirror with my eyes all  
bloody  
Stick my long, black, cold tongue all in they ear  
And be like, "I'm only playing"  
And disappear  
I wanna die  
And have everything answered  
What happened to my father?  
Why was I a bastard?  
What is thunder?  
Is it really God bowling?  
And nighttime's a blanket  
And all the stars are the holes in it

[Chorus x2]

Jamie Madrox:  
Your answers are unnecessary  
You understand  
Never question the emotions  
Of an unstable man  
I got the petals of the Lotus  
And the pedal to the floor  
Following a black hearse  
In the rain through a thunder storm  
Never once did I inversion  
Me being stuck in such a situation  
He made decisions  
And now his spirit levitating  
I can see him waving at me  
Through the window of the hearse

He's crying blood  
It all stops and it gets worst

[Blaze Ya Dead Homie:]  
Ashes to ashes  
Dust to dust  
At least that's what I was told  
When I was on the come up  
Been to the grave and it ain't no joke  
Resurfaced to the earth with the spirits I invoke  
Cut down in my prime  
When my block got hit  
Now I'm riding in the back of a hearse and shit  
Darkness, pitch black  
Never seeing no one  
And the devil got his darkest demons  
Riding shotgun

[Chorus x2]

Take me away  
Take me with you  
Take me away  
Take me with you  
Take me away [echo]
