Dark Lotus  
(Lotus)  
I can make it thunder  
(Dark Lotus make it thunder)

Madrox:

Don't be looking to the sky for birds or planes  
All you'll find is the Dark Lotus spittin' the Black Rain  
Body slamming each other on clouds  
Making electrical sparks that can be seen for miles  
In the depths of the dark, 'til we stomp the clouds  
With thunderous roar  
That's when bolts start flyin' and rain starts to pour  
Where you gonna run from? Up here we gotta clear  
view  
And with electrical bolts you know that we gonna spear  
you.

Violent J:

I got a 15 pound sledge hammer that I burry into  
domes  
Of people in them unlock tombs  
And fuck a headache I pop heads like grapes  
And I keep swinging at it until the bed breaks  
I make it boom, I'm always spending bloody money  
And if my mom found out how I got it  
She wouldn't love me  
It's over quick, I blow the brain matter out your ears  
And leave the bloodiest crime scene the mother  
fuckers seen in years.

Chorus x4:

I can make it thunder  
Kaboom!  
(Shake the ground)

Monoxide:

Explosive and I can split the ground  
I'm that crazy mother fucker that just walked into town  
With a backpack full of C4  
And your backpack's full of whack raps cause it's all  
that your good for  
Push the button, I dare you, go ahead and do it  
And fuck it, I'm about to lose it  
And show you to step to it  
I blew it up, and then I walked away clean  
I wiped the block like slate and a house on a scene

Shaggy:

Don't make me jump up and put Zeus in a headlock  
There step my foot and make the earth crack, no this  
My hatchet blade is sharp as a razor  
And split the spine of many a hater  
When we roll this deep with six petals  
And bang more heads together than heavy metal  
When my hands hit your neck, you're gonna feel a grip  
And when I go to Hell  
I'm gonna pimp the devil like a B-I-itch

Chorus x4:

I can make it thunder  
Kaboom!  
(Shake the ground)

Blaze:

Feel the Earth shake when my feet penetrate the  
ground  
The Dark Lotus sniper shaking clouds bringing the  
thunder down  
Forget about the scope, more like a psycho killer  
There ain't no method to my madness  
I only like to murder  
It's cool to see bitches tryin to run, they won't get far  
They just a moving targets, and we aiming for the  
heart.  
Bullets rain down like spurts of flash flood  
And 30 people lie in pools of their own blood.

ABK:

Can you see the light flash when you walk in the dark?  
Lotus keeps you on the edge of your seat with a spark  
Everything arounds crumbling, listen to the sounds  
From the center of the Earth rumbling  
Can you feel that?

Every place you look you're blinded by a sign  
That thunders coming stronger and you're about to die  
Hell is dropping faster, rain is burning hot  
And the only thing you can do is sit back and watch.

Chorus x4:

I can make it thunder  
Kaboom!  
(Shake the ground)

Kaboom!  
(Looks like rain)
