I ride the death machine down to dead man's curve  
At super overdrive, acceleration force  
I am the speed patrol, transcendence on my mind  
I take the challenge and I leave the world behind

Run for termination at the speed of sound  
Down in Dead Man's Curve  
A cry for liberation, a collision course  
Down in Dead Man's Curve

I ride the gambling horse at extended trot  
Force-fed for overload at once and on the spot  
I am the speed patrol, my demons petrified  
I take the challenge and I leave the world behind

Run for termination at the speed of sound  
Down in Dead Man's Curve  
A cry for liberation, a collision course  
Down in Dead Man's Curve

[Solo: Ross]

Run for termination at the speed of sound  
Down in Dead Man's Curve  
A cry for liberation, a collision course  
Down in Dead Man's Curve  
A cry for liberation, a collision course  
Down in Dead Man's Curve
