What would you do instead of me
You aren't able to see what I feel
I think that intuition
Means more than analyse
Disgusting
I'm screaming
I know that I'm not wise
Instead of faking
Use to cope with myself
I drag
I tell you
I know I'm not twice
I got a bomb in your head
Cold ripping fellow
We got to realise
Escape is common ray
Escape no way
Out of this cage
Don't pray
They force you to stay
In animals cage
What are you doing
Instead of me you aren't able
To listen and feel like me
Why?
I feel violent world in you hands
Bend
Lifting far away
Escape no way.....
You're trapped in analyse
I'm not able
You know I'm not wise
