"Take Me Higher"

Lost in a trance I just lose track of the days,
Dreaming and sketching out all the right words to say
Then suddenly the moon comes out I find myself again
It's a dawning, (it's a dawning)

And I'm movin on
And I'm movin on

Take me up higher than I've ever been before
Take me up higher (2x)

Running from storm clouds I'm searching for the sun
Desperately seeking advice FROM anyone
An old man grabs me by the arm and points me too the
sky
Can you see it?
Can you feel it?

And I'm movin on
And I'm movin on

Take me up higher than I've ever been before
Take me up higher (2x)
