"I Must Be There"

Visit "[I Must Be There](#)" on MotoLyrics.com

If there's such a thing as heaven
Then I must be there somewhere

Shadows on the sky below shade reality from see
Colored spots run through the grain as lines begin to
fade
Pray to the force sounds fill the air
As filter mentions dance all around and around and
around

Ah ah ah ah ah ah ah ah ah ah ah ah ah ah ah
Now I feel the warmth of a nature's war
that is won so many ways

For so near
Now the sky is turning red
It's falling in on my head

It's falling down, it's falling down, it's falling down,
it's falling down,
