"Your Symphony"

I know that you need me
To survive in this world
World of empty words
Take my hand and feel me
If I'll be your friend...
Forever be
[Bridge:]
In the depths of wind
Could be playing with me
Your symphony
Playing on and on
Never be alone
Sing my song
I stay by your side, girl,
Through the endless hate, my dear,
The rain disappears
The poison of your life
Fills my glass and I...
I drink, I die
[Bridge]
[Chorus:]
You give me the light
All my cold nights
Your fantasy
Will be my symphony
