Knock the head, broke the chest remove the internal  
organs carefully chop her cunt and cut her tits  
amputate  
The arms slice her inner lips as she scream with  
violence burn the flesh as you beat the inner bodie  
Smell the stinking cunt, i hope the stench will remain  
forever peel it slowly as the blood start to get out  
But don't peel the vagina that's my lovely part  
That i like to taste as we start to sodomize yyour stupid  
body stupid bitch turn around while another explore  
your cunt  
Extracting all your shit that you going to feel inside of  
your mouth take off her eyes she doesnt't
