Full of body parts i make a bloody feast as i start to lick
this anal flavor how i love this smell with a lot shit
This anal trofeos i will kep for this mentality you will die
choked by your blood and my sperms as y ou see your
wounds in the floor
Impaled all this bodies in the wall all my lust, i become
your anal god, your cunt will explode throwing all the
shit, choked by
Your shit drowned on blood blasphemous enoyment
while i chop your anal cavity, forcing you to convulse
for introducing
All my blessed disease.
