Slowly raping the flesh of your ass a brutalized
moment of disease suction of blood by your cunt
sodomizing our body
With hate, introducing the dead into your depths with
my tools of hate a morbidness place become with all
this bloody collection\
Of cunts, ratting asses in the bitterness deformity
beyond the unreal in a sadist mind of gore starting to
vomit
In your anal tract smelling like a pungent aroma
watching the corpse smelling her cunts carbonized and
tasteful with
Her skin mutilated what a terrible stench
