Have you ever been out  
With the girl that they all talk about, yeah  
Choose the time pick the place  
Be on time, don't be late tonight, no  
She's quick and she's fast  
And she wants it to last all night, boy  
You gave her the shaft  
But she gets the last laugh all the time

Chorus:

If you see her out on the town  
She's got a bad reputation  
She's bad to the bone  
With a bad reputation  
And (That) everybody knows

Some of your friends have been there  
And her nose in the air  
It's a crime, it's a crime, no  
She's the talk of the town  
And they're putting her down for her lies  
She's baiting her trap  
You're the victim...  
But you've broken no rules  
Now who is the fool this time, so

Repeat Chorus

With a bad reputation  
She's bad to the bone  
Got a bad reputation  
That everybody knows  
Bad reputation, bad reputation
