Can you feel the music
Yeah do you feel the beat
Can you feel the pressure
And can you feel the heat
There's a world out there for the taking
It's all a game
So follow your instincts, boys
There's a lot to gain

Chorus:

You gotta take, take what you want
And don't settle for second best
Take, take what you need
And don't settle for less

No satisfaction, got no guarantees
(Take, take what you want)
It's all for the taking
Easy as one, two, three
(Take, take what you need)
When you're full of excitement
Boy, you need a lot
(Take, take what you want)
Life in the fast lane
But don't crash in the track
(Take, take)

Repeat Chorus

No

Open your eyes, yeah
And go for it all
Take what you want
Life's for the taking, boy

Repeat Chorus 2x
