Left you standin' in the rain
On a night so long ago
You gave me love, I gave you pain
I had to go, no one's to blame, no no no

There's a loneliness I feel
Left a taste as cold as steel
No one, no one can take your place
All these memories I can't erase, no no no

I got a whole lot of love in my heart
And baby, the night cries out for you

All the laughter and all the tears
All the memories and all those years
Babe, I need you here tonight
Babe, I need you here to hold me tight

Maybe someday you'll feel the same way I do
And then we can be together
'Cause I know you feel the same way, too
But baby, what else can I do
What can I do, yeah

I got a whole lot of love in my heart
I got a whole lot of love for you, you, you
I got a whole lot of love in my heart, yeah
And baby, the night cries out for you

Oh it cries out for you
The night cries out for you, yeah for you
Oh the night, the night cries out for you
The night cries out for you, you, yeah
