From mighty to lowly  
And even the weak  
From fighter to boxer  
And cop on the beat  
From lightest to darkest  
And you in between  
There's a light in your eye  
And a vision you've seen

Chorus:

It's getting brighter

.....

It's something we all dream  
You're gonna be  
You wanna be a star  
Your name in lights

You wanna be a star

You can deal your best cards  
You can play your best hand  
You can push for the top  
You can make a stand  
From a loser to a winner  
Whose turn has arrived  
So go for it all  
To get the prize

Repeat Chorus

You wanna be a star

Repeat Chorus

You drive a fancy car  
You wanna be  
You're gonna be a star  
Your name in lights  
You're gonna be a star
