"Your Girl"

Visit "[Your Girl](#)" on MotoLyrics.com

I knew it from the start
You can melt my heart
It brightens up the dark
As I she'd a tear for you
Will I figure it out
What you are all about
The feelings I have for you
Float without a doubt

[Chorus]

I want to share my dreams with you
I'll pray that it will all come true
Show me the way to love you baby
That's what I'm wishing for
Give me a chance to kiss and hold you
I'll give you forever and so much more
Just let me love you now
And I'll forever be
Forever be
Forever be your girl

I can show you now
If I lay it down
I don't want to lose this time
Oh baby please be mine

[Repeat chorus 2x]

I knew it from the start
You can melt my start
It brightens up the dark
As I she'd a tear for you
