You don't lie, you don't fight
Don't plead for seeing the light
you don't gaze the mean face
don't try to pray

just to save your illusions
to save your shame
now your life is impregnated of blame

please help me, of kill me
but don't bury my soul
i'm dreaming, i'm screaming
full of grief
i'll be condemned without mercy
without a song
buy i've a nice hope

[Chorus]
The wind in my hair
the sun under my veil
i'll go though
the road is hard and long
thousand of questions
and only one answer
My anger is in the heart of stone

I'm sneaking, I'm Creeping
i'm needing all my faith

I'm sinning i'm learning
full of grief
i'll be condemned without mercy
without a song
buy i've a nice hope

[Chorus]

Don't hit me, don't stave me
What is my destiny?
I'm sighing, i'm crying
full of grief
i'll be condemned without mercy

without a song
but i've a nice hope

[Chorus]

"The Gates Of Oblivion"
2. A New World

Old world has left in starvation and disease
fourteen ninety-two bring a new change to see
Across the ocean they would sail
(following out the dark blaze)
They keep the route with an endless faith

[bridge:]
far beyond the earth's edge
they will reach their dreams
as a privilege
sun still spreads out its dreams

[Chorus:]
With the winds of the sea
always blowing from the east
three boats dare to face
just a will, a belief
which could cross the deep abyss
to discover a new world
saving humanity

suddenly a joyful cry
was heard in the advanced night
the long awaited sight
was seen below the sky

new treasures shine before my eyes
(they're bright like a burning fire)
i will enjoy the eternal sea of life

[Bridge]

[Chorus]

inventus nautarum in novam terram
argentum aurumque America

but they didn't know
that this virgin ground
was an unknown land that overgrows
new eden's found
the lost paradise
Mankind's dawn is beginning to rise

this land is wild
Our boots were defiled
Our dreams will be reality
the native's pain
always in vain
our glory was their agony

But when columbus told the queen
all the thing he'd see
he had to submit and be agreed
With kingdom's greed
[Chorus]

"The Gates Of Oblivion"
3. The Gates Of Oblivion

"The Gates Of Oblivion"
4. Nevermore

Demons in my mind
bind to write the world
World forevermore
horror

Master of the pen
when the raven lies
Sighs, but never dies
darkness

The imp of
The perverse
whisper from the drink
The mask of
the red death
Hides the face of his tortured soul

[Chorus:]
Free mind confirmed
just behind reality
its kingdom is by the sea
Grim rhymes of yore
were born in Baltimore
the bird said: "Nevermore"

He was in love for
the only cause of doom
fighting for love with
the enamoured tomb

Was his love

like a dove
tender sweet and frail
Like a Sail
in a gale
He was the eternal lover

[Chorus]

in the edge of knife
Life in the tight rope
hope to take the slope
sorrow

in the time of tears
near the last shore
sore to take the door
Sadness

the pit and
the pendulum
hang over his heart
the black cat
the one-eyed
sees his conscience beyond the wall

[Chorus]

"The Gates Of Oblivion"
5. Starsmaker (Elbereth)

When day is out, i can see in the sky
Plentyful forest made with the stars
In cold night, i can feel the near-by
goddess of asters no matter thou art so far

[Bridge]

but in my sorrow i need to see
beatiful sunsets, precious to thee
and in my travels when they're too long
i'm just pay worship with this sweet song

[Chorus:]

Everytime I gaze the blue sky
filling thy grace with love tears my eyes
In thy face see the space
in my cry, hear a sight
Praying for thy light

a during ship crossing the sky by day
Sailing the morning. light is its trade
A silver ship for love starting the chase

when the night comes the light dies away

[Bridge]

[Chorus]

"The Gates Of Oblivion"

6. Mist In The Twilight

"The Gates Of Oblivion"

7. By The Strange Path Of Destiny

Walking through the lane
when conforms our life
we play a fool's game
to survive
Pleasure enclosed me
embracing with loving arms
Pain came to me
with great harm

[Bridgde I:]

have you ever wonder
are we just victims of fate
Fed with the seeds of hate?

why must be wander
towards the dark unknow gate
althrough our will is great?

[Chorus:]

Oh by the strange paths of destiny
searching out hard my hidden place

faces weave (the) life cord of humanity
in the end their last verdict can't wait

goddess of fortune be by my side
mother experience keep me alive
unyielding time now has just decide
if i'll survive

I saw a siren
in my lonely way
lost in her silence
(we) turn away

[Bridge II]

disgrace has found me
it would try to make the fall
but hope kept me from all

anger had chained me
but the siren set me free
diving into life's sea

[Chorus]

"The Gates Of Oblivion"
8. The Night Of The Age

When the golden dusk covers me
And the beams play with the trees
Memories so come to my heart
Because the guardian of the dreams departs

[Bridge:]
Who stole my illusions?
Who stole my hopes?
Why did the light go off
And since I grope?
Where will I find the force
To untie the past's rope
in my soul?

[Chorus:]
Go on
Within the black night of the age
getting my sadness turn to rage
Even oblivion
So feeling will be free again
the dreams will break the chains
flying to the eternity

Sometimes in dreams I see her eyes
Watching me like wells of lies
Those in the cold cloak of the night
Were my sole flame, of whom I was acolyte

[Bridge]

[Chorus]

Where are the guardians of the dreams? Return to me
Tell me answers that my mind will

[Chorus]

"The Gates Of Oblivion"
9. Your Symphony

I know that you need me

To survive in this world
world of empty words
take my hand and feel me
i i'll be your friend...
forever be

[Bridge:]
In the depths of wind
could be playing with me
your symphony
Playing on and on
never be alone
sing my song

I stay by your side, girl,
through the endless hate, my dear,
The rain disappears
the poison of your life
fills my glass and I...
I drink, I die

[Bridge]

[Chorus:]
You give me the light
all my cold nights
Your fantasy
will me my symphony

"The Gates Of Oblivion"
10. The Citadel Of The Light

"The Gates Of Oblivion"
11. A Truth Of Me

My sorrow is like
leaves flying in the air
when the wind strikes
blowing everywhere
and i can't stay living in this tearful valley
so i just pray for having all the force
to be a stream leading its course
Flowing up to its source

[Bridge I:]
But my love is for the only light
but my heart goes to standing right

[Chorus:]
If I could flee
from my sorry thoughts

like the rivers running slope down at last to be free
When i see
lovers who can dream
with sweet fancies that will never be
a truth of me

nobody can live
twice in just one time
Neither can give
Twice love in it's prime
but van't prevent feeling to surrender to love
So I feel myself prisoner of sin
when y give to the eart my skin
And my soul to the wind

[Bridge II:]
but my love is keeping watch the night
But my heart cries the eternal fight

[Chorus]

[Bridge I]

[Chorus]

"The Gates Of Oblivion"
12. Dies Irae (Amadeus)

Confutatis maledictis
flammis acribus addictis

When the sun is flustered
and the moon is free
The great little master
Writtes a little melody

the notes fever's in my breast
aches to be away

Eternal wisdom
in glorious kingdom
that is my sole wish

[Bridge:]
the first violin lead me while the harps
embrace me like the blood
the madness beats my art
In the stage my baton cuts the air
I am
in a world i never made, a man

[Chorus:]

Dies Irae, Dies Illa
Solvent saeculum in favilla
Teste David cum sibilla
quantus tremor est futurus
quanto iudex est venturus
cuncta stricte discussurus

The sound is around
long live to the king
never falling down
Rex gloria; Rex gloria

witness of the time
spirit is sublime
no more feels of pain no more hate
a revenge is going away
Where is my destiny?
Where is my fantasy?
I need to free my soul and cry
someone to pray for me
I need to free my soul and will die
there wells up the only tear
we shed without woe
and ride like the wind because
the music is enthralled

the note's fever in my breast
aches to be away

Eternal wisdom
in glorious kingdom
that is my sole wish

[Bridge]

[Chorus]

the soft sleep to your bed
is not worth pursuing
you will so soon be dead
death will serve instead
turns to the thing
he was born to be
a master to the king
keep your fancy free
in the deep of the sea

Salva me, fons pietatis

[Bridge]

[Chorus]
