Hear my call here and everywhere
I've been walking the streets in despair
One more fire turns a shade of gray
One more tear is lost in the rain

And I say that I love you, I say that I need you
Baby I leave you a sign of desire
No shadow will haunt you, no heart will desert you
No one will hurt you, no space and no time

Got to, got to, you got to got to take your chances on
me
Like the river will lead the water to the sea
Take on me, take your chances on me
Don't ever let it be, don't ever let it be

There's a night when you close your eyes
Around a dream that shines like the sun
Everyone knows it's beautiful
Tell me why you want to dream it alone

And I say that I love you, I say that I need you
Baby I leave you the lines in my palm
No darkness will get you, no heart will desert you
Nothing can hurt you or do you any harm

Got to, got to, you got to got to take your chances on
me
Like the river will lead the water to the sea
Take on me, take your chances on me
Don't walk away from me, don't walk away from me

Say that I love you, say that I need you
Baby I leave you a sign of desire

Got to, got to, you got to got to take your chances on
me
Like the river will lead the water to the sea
Take on me, take your chances on me
Don't ever let it be

Take on me

Like the river will lead the water to the sea
Take on me, take your chances on me
Don't walk away from me, don't walk away from me

Don't walk away from me
Take on me
Don't go, go away from me
Take your chances on me
