

Roxette "Every Day"

Visit "[Every Day](#)" on [MotoLyrics.com](#)

Every day I see him coming
Every day he walks on by
Life used to be so plain and simple
Before he came into my life
Every night I keep on dreaming
Every night I take him home
We always go to bed together
I always wake up all alone

Chorus:

Oh its strange, so strange
What he's doing to me
Oh its strange so strange
Did this ever happen to you?
The way it has happened to me
The way it just happened to me

Every day outside my window
Always minutes close to eight
I wish he stayed a little longer
But his bus is never late
Every night we're dancing slowly
I play the music he adores

Like Sinatra then we're talking
All important things for sure

Chorus:

Oh its strange so strange
What he's doing to me
Oh its strange so strange
Did this ever happen to you
The way it has happened to me
The way it just happened to me
Oh its strange so strange
What hes doing to me
Oh so strange real strange
Did this ever happen to you
The way it has happened to me
The way it just happened to me
