Goodbye to you  
Goodbye to broken hearts  
Goodbye to romance hidin' in the dark  
Nights that leave a scar

Goodbye to you  
Goodbye to empty cards  
Goodbye to this ball of bliss  
I'm dancing from your arms

And I fill the bedroom  
With silent visions of rain  
And I paint the morning  
With echoes from pleasure in pain

I don't wanna touch emotions  
I just got to run away  
Electric blue like oceans  
Wild like lovers sway

Goodbye to you  
Goodbye to broken hearts  
Goodbye to romance hidin' in the dark  
Nights that leave a scar

Goodbye to you  
Goodbye to empty cards  
Goodbye to this ball of bliss  
I'm dancing from your arms

And I seal the pillow  
And shatter dreams down the hall  
And I hang the heartache  
Like pictures on the wall

Can you hear the sound of angels?  
They're playing hurting games  
Well, I'm a stranger when I'm leaving  
I was a stranger when I came

Goodbye to you  
Goodbye to broken hearts

Goodbye to romance hidin' in the dark  
Nights that leave a scar

Goodbye to you  
Goodbye to empty cards  
Goodbye to this ball of bliss  
I'm dancing from your arms, oh yeah

Goodbye to you  
Goodbye to empty cards  
Goodbye to this ball of bliss  
I'm dancing from your arms

Goodbye to you  
Goodbye to broken hearts  
Goodbye to romance hidin' in the dark  
Nights that leave a scar

Goodbye to you  
Goodbye to empty cards  
Goodbye to this ball of bliss  
I'm dancing, I'm dancing from your arms

Goodbye to you, oh  
Goodbye to you, oh  
Goodbye to you, oh  
Goodbye to you, oh
