Ever since I saw you
Entering my world
Life has really changed
To diamonds and pearls
I'm tryin' to take it slow
Just goin' with the flow

I want you to know
I want you to stay
Don't go

Every day's the same
Like cracks on the wall
But every time I meet you
All walls start to fall

But I'm tryin' to take things slow
Just goin' with the flow

I want you to know
I want you to stay
Don't go
I want you to know
I'm comin' your way
Don't go

I want you to know
I want you to stay
Don't go
I want you to know
I want you to stay
Don't go
