I move all right, I got the wheels going round
Making ways in the night
Yea, we're movin' all righ
Wipin'the rain from the ground and the pale from the
sky
But something happens in his heart when the morning
comes

The seacrets that she keeps away from me
The tears on her pillow
She don't want me to see
Well, every little thing she does is for me
But somebody new is breaking us in two

He's the kind of love that makes a whirl in your mind
Like the tide and the time
With just a little bit o'soul
He fights to find peace of mind in these shattering
eyes
But something happens in his heart when the morning
comes

The seacrets that she keeps away from me
The tears on her pillow
She don't want me to see
Well, every little thing she does is for me
But somebody new is breaking us in two
The love of you and me
