It's like the instigators in our brains
And everybody's driving us insane
I'm in the desert just got off the plane
Breakin in take away that pain

Chorus :

Well check me out
I'm like a firecracker
Can't touch me
Live on the edge of reality
Well I'm dreaming now
So call me a liar
Walking on the edge
Of the circle of fire

About our dreams and broken hearts
And all the times that they tear us apart
I watch the people as they gather around
I take them up and I take them down

Chorus x 4

Check me out
I'm like a firecracker
Bring me back to the perpetrator
Burn me out, until we can't breathe
Turn me on, coz I never sleep
