Robots never get raped
Robots never get raped

At night I hope they go away
I can't believe what they say
Everyone is the end
No one is real

Take me to the movies ok
There's no humans left in this world
There's no humans left in this world anymore
There's no humans left in this world

Robots never get raped
Can't believe what they say
They believe me anyway
Who will ever take our place?
No one is real real

Take me to the movies ok
There's no humans left in this world
There's no humans left in this world anymore
There's no humans left in this world
There's no humans left in this world anymore

This is what I told you Hey Hey Hey
Yeah I tried to warn you Hey Hey Hey
This is what I told you Hey Hey Hey
Yeah I tried to warn you Hey Hey Hey

Robots never get raped
Who's the star? Kiss her face
I am really feeling great
Everybody just take take take
Take me to the movies OK

Yeah I'll stand around and play the part
I feel like I am going down
I don't know, Robots in my eyes
Look what I have found

There's no humans left in this world

There's no humans left in this world anymore
There's no humans left in this world
There's no humans left in this world anymore
There's no humans left in this world
There's no humans left in this world anymore
There's no humans left in this world
There's no humans left in this world anymore

Robots never get raped
Robots never get raped
