Some people say it's a breeze,
Just living right,
And getting what you want
But...

Chorus

Life isn't what it seems
You never know what can happen
There's no map you can read
That will tell you every turn
Or every obstacle that's in the way
Sometimes things get thrown at you
That can bring you to your knees
Laughing at what could and have happened
Life is funny

Some people seem to think
That it's not worth
The pain and stress
But...

Chorus

Still, other's just like to flow
Wherever it may take them
No matter whether love or loss
Is on their path

***Chorus* x2**
