Every time you come near  
My heart takes it's own turn  
Telling me that you're here  
And the lessons that you've learned  
But you'll never cause me to cry  
Cause I'll never give you the time  
Again

You don't know  
But you don't care  
You're the songs I wrote  
And the notes I played  
On this broken guitar

The string have been cut  
The base has been broken  
We said that it was over, but  
I think I missed the token  
To your heart

You don't know  
But maybe you care  
You're the songs I wrote  
And the notes I played  
On this broken guitar

Will it work this time  
Will I stay yours  
And you stay mine  
Because all I can say is  
I love you

Now you know  
I hope you care  
You're the songs I write  
And the notes I play  
On this once broken guitar  
That has been fixed again  
Like my heart
