(Verse 1)

You say you love me
And you want to be mine
I say that's cool
But there is a line
That draw

(Chorus)

Never take away
My innocence of mind
And I'll never accuse you
Of a very black crime
This is my heart I give to you
And this is my promise I spilled for you
Written in blood

Now I've told you what this is
What this love is going to be about
Now it's your turn to take the risk

Chorus 2x

This is not gonna be
Just a shot in the dark chance
Cause there's a secret I play
In a dark and serious romance
Like this

(Chorus)
