What is it they're saying
To make you look at me that way
I haven't done anything
To make you not want to stay
You should know me by now
Why are we talking about this

Chorus

You know they're just friends
They've been there for me
When no one else was around
There's no words to express
How much I do love you
Please don't make me drown
In my own tears again

I know what it's like
To feel the hurt and the pain
So I wouldn't make you
Feel like going insane
You should know me by now
Why does this matter still exist

(CHORUS)

I've told you all my secrets
You know all my weaknesses
I've never held anything back
Everything has been far from a lie
You should know me by now
